We have examined the books of the Treasurer and find the same correct.

C. C. GREENWOOD,
J. M. HARRIS, } *Auditors.*

NEEDHAM, Jan. 31, 1875.

SELECTMEN'S REPORT.

The past year has been one of unusual interest, both as regards the improvements made in our Town Hall building, the new school-houses at Lower Falls and Grantville, and in regard to the appropriations made, and taxes which followed.

The large amount of money appropriated by the town at the last annual meeting, the disbursement of which devolved to a considerable extent upon the Selectmen, has been the means of greatly increasing their labors, and the consequent anxiety in having matters with which they were intrusted done for the best interests of the town.

A statement in detail, in this report, of the money paid out, would be unnecessary, as the Report of the Auditors will furnish a detailed account of all moneys expended, therefore, we shall speak only in general terms of the different appropriations, except with regard to the alterations in the Town Hall building.

TOWN HALL BUILDING.

Pursuant to a vote of the town your Selectmen have caused certain alterations in, and additions to be made to the Town Hall building. The accommodations now are ample and convenient for town purposes. The main hall is 73 × 34 feet, with a room for the Selectmen 14 × 19, and another for the School Committee 14 × 14; these two rooms are arranged with folding-doors, so that if necessary they will form one large room 14 × 34 feet. The work was done by contract as nearly as was consistent with remodelling and repairing old work. As the work progressed, many changes were found necessary, which could not be brought into the

estimate, as they had to conform to the frame and plan of the old building.

The following is a statement of the cost of the work: —

By Cash paid —	
J. M. Harris, for plan of Town Hall building,	$15 00
J. E. Cloyes, for underpinning stone,	98 49
Jno. Fuller, for laying cellar-wall,	231 52
J. H. Fitzgerald, for rods in hall,	60 55
Gardner Chilson, for ventilators in hall,	16 00
Dennett, Bliss & Jones, for paper for anterooms,	5 20
W. D. Parlin, for paper for house,	12 31
Fawcett, Hawkes & Co., for two furnaces,	439 22
Oliver Pickering, on contract,	6,323 00
Oliver Pickering, for extras,	1,003 63
A. M. Mace & Co., for lead pipe and plumbing for pump and sink,	11 37
Wisner & Edwards, for papering and painting, extra,	81 64
E. Peabody, furniture in house,	55 00
New England Carpet Co., for carpets for house,	88 80
Goldthwait, Snow & Knight, for carpets for anterooms,	57 15
Stephen Smith & Co., for desks, bookcase, and tables for hall and anterooms,	119 00
W. O. Haskell & Co., for settees for hall,	215 60
Tucker Manufacturing Co., lamps for hall and building,	69 81
Walter Bowers, for rebuilding lock-ups,	205 98
	$9,109 27

These items have been charged as follows: —

To original appropriation for alterations, Town Hall building,	$6,500 00

Additional appropriation made at town meeting, Dec. 30,	$1,500 00
Returned from the State on account of small-pox bills and State Poor, and expended for the comfort of the poor in heating, painting, papering, furnishing and incidentals, which would not properly belong to alterations in Town Hall,	763 20
Unexpended balance of lock-up appropriation made last year,	321 57
Miscellaneous,	24 50
	$9,109 27

ALMSHOUSE.

That this institution still remains under the care of Mr. Peabody is a sufficient guarantee that the interests of the town are carefully looked after, and the poor well cared for. The appointment of Mr. Peabody as a surveyor in the Centre District, in addition to his office as Warden, added greatly to his duties; and the boarding of the men employed on road work, though a saving of expense to the town, added to the labor in the house.

The entire remodelling of the house during the summer was a source of great inconvenience to the Warden and his estimable wife, and the thanks of our good people are due them for their earnest desire and effort to keep down expenses and administer to the necessities of others.

POOR.

In the early part of the year two severe and expensive cases of sickness occurred, which the town had to provide for, viz. Armstrong and Canning, neither of whom had a settlement in this Commonwealth, but it was impossible to remove them to the State Almshouse, owing to their condition, and the town will receive back but a small portion of

the expense incurred. Later in the season another expensive case had to be met, that of Sullivan, living in Newton, but belonging to this town. These items will be found in their proper place in the Auditor's Report.

About the usual number of applications have been made for assistance, which, after careful investigation, has been rendered where it was deemed proper. The whole number of persons, exclusive of tramps, assisted by temporary relief or partial support during the year, is forty-five. The number fully supported by the town, including those in the State Lunatic Asylums at Taunton and Worcester, is eleven. The number of persons at present supported in the Almshouse is five. The total number of persons assisted by the town during the year, exclusive of six hundred and thirty tramps, is fifty-six.

HIGHWAYS.

Of the money appropriated for the repair of highways, the $2,000 set apart to be expended under the direction of the Selectmen has been distributed in the different districts in accordance with their respective needs, taking into account the general good. The general condition of the roads is good, but an increased amount will be necessary for repairs the ensuing year.

Your Selectmen having been appointed a committee to report upon the expediency of having only one Superintendent of Highways, and also in regard to a Board of Road Commissioners, would respectfully recommend the adoption of Chapter 158, of the Acts of 1871, which is as follows: —

An Act to provide for the election of Road Commissioners.

Section 1. Any town which shall have accepted the provisions of this act, at a meeting called for that purpose, choose by ballot three competent and discreet men, being inhabitants of said town,

who shall constitute the Board of Road Commissioners for said town, one of whom shall be chosen for the term of one year, one for the term of two years, and one for the term of three years, from the date of the annual meeting of said town at which they may be chosen; or if they shall be chosen at a meeting other than the annual meeting of said town, then for the term of one, two, and three years respectively from the date of the annual meeting next preceding said election, and until their successors are chosen and qualified; and at every subsequent annual meeting the voters of such town shall choose one person, qualified as aforesaid, to be a member of said Board, to serve for the term of three years: *provided*, that such acceptance, at any annual meeting thereafter called for that purpose, may be revoked, and said Board abolished.

Sect. 2. Said Road Commissioners shall have, and perform exclusively, all the powers and duties now vested by law in Selectmen and Surveyors of Highways, concerning the laying out, altering, making, repairing, or discontinuing streets, ways, sidewalks, sewers, and drains.

Sect. 3. Said Commissioners shall be sworn to the faithful performance of the duties of their office, and shall receive such compensation for their services as the town may determine.

Sect. 4. Whenever a vacancy occurs in said Board of Road Commissioners, the same shall be filled by the Selectmen of such town, and the person so appointed shall hold his office until another shall be chosen at the next annual meeting of said town, and qualified.

REMOVING SNOW.

The appropriation of $1,200 for removing snow was largely in excess of the requirement, $300 only having been expended. The vote to remove snow from the sidewalks in the villages has been appreciated as much, perhaps, as almost any other vote passed.

CENTRAL STREET.

The unexpended balance of the appropriation made last year for this street, and continued this year for the same,

has been worked out with the exception of $70.31, which is needed for a railing at the Arch Culvert, to complete the work.

FOREST AVENUE.

A much-needed improvement has been made in this street. The appropriation of $1,000 has been expended under the direction of Mr. Peabody. During the progress of the work in some places it was found necessary that the street should be widened, and the abutters were willing to give their land. This being a main avenue, narrow, and the lines not wholly defined, your Selectmen, acting upon a petition, have laid it out of a uniform width of fifty feet, from Laurel Avenue to its junction with Central Avenue.

It seems important, while parties are taking up land and making improvements, by setting out shade-trees and in other ways, that the streets should be of a good width and the lines properly defined; then dwellings could be located, and shade-trees planted to conform, and each year our streets would be gaining in regularity and beauty.

In laying out the street, damages have been awarded as follows: Lewis Kingsbury, $50.00; Josiah A. Osgood, $37.00; N. A. Parks, $75.00; Abijah Greenwood, $200.75; Thomas Whitaker, $100.00; Bill Burrill, $131.00. Where no damage has been awarded, and where fences are to be moved back, it seems proper they should be made as good as at present without expense to the owner.

GREAT PLAIN AVENUE.

The appropriation of $1,000 for this avenue, together with the unexpended balance of $152.77 of the appropriation made last year, has been expended under the direction of Mr. C. H. Dewing.

The amount paid for surveying has been charged to this appropriation.

To complete the work, as laid out by the County Commissioners, will require about $1,000. The necessity for improving our main thoroughfares increases each year, and until they are thoroughly built, in and near our villages, special appropriations will be asked.

OAK STREET, PICKERING STREET, SHERBURN AVENUE, AND GARDEN STREET.

Mr. Dewing was employed to do the work on these streets. The cost of survey and building Oak Street was $178, being $22 less than the appropriation. There is a necessity for a grade-crossing over the N. Y. & N. E. Railroad at this street, and a petition should be presented to the County Commissioners for this purpose.

The cost of building Pickering Street was $300, being the amount appropriated for that purpose.

The appropriation for Sherburn Avenue was $200, which was the amount expended.

In laying out Garden Street last year, your Selectmen awarded Mr. Geo. H. Gay $50 for land taken. Mr. Gay, not feeling satisfied with the award, brought the case before the Superior Court at Dedham. The jury decided in favor of the town, and Mr. Gay received nothing, the ruling of the Court being substantially that where the benefit to the public at large is equal with the benefit to the abutter, the owner of the land taken shall be entitled to recover its value; but where the benefit to the abutter exceeds the benefit to the public at large, to the value of the land taken, together with the damage to trees and fences, he shall not be entitled to recover damage. The appropriation of $350 for this street, which included the award for land damage, has been expended in building the street and defending the suit.

BROOKSIDE ROAD (Road by C. H. Flagg's and Ralph Smith's).

The $500 appropriated for this road was expended under the direction of Mr. Peabody, and the road is in as good condition as is necessary for the amount of travel over it.

CHESTNUT STREET.

The work on this street, as ordered by the County Commissioners, has been done by Mr. C. H. Dewing, at a cost of $506. Appropriation, $500.

RESERVOIR STREET.

It having been found impracticable to build an arched stone bridge over the reservoir, a substantial wooden bridge was substituted. The street and bridge were built by contract by Messrs. Daly & Sullivan; the total expense, including awards for land damage and work done on approaches, was $2,672.07, being $1,027.93 less than the appropriation.

WELLESLEY SQUARE.

The appropriation for draining the Square in Wellesley has been expended under the direction of Mr. Augustus Stevens, who, with the advice of an engineer, has made a substantial and much-needed improvement, and within the limits of the appropriation.

WOODLAWN AVENUE.

$200 of the appropriation for this street was awarded for land damages; the remaining $300 was expended for grading, under the direction of Mr. Asa Fuller.

LIGHTING STREETS.

During the year there have been fifty street-lamps erected and maintained, for which three dollars each have been paid pursuant to a vote of the town; $850 of the appropriation remains unexpended.

OBSTRUCTIONS.

The amount used of the $1,000 appropriated for removing obstructions from streets has been $143.85, leaving $856.15 unexpended. We would recommend this amount be continued for the benefit of the appropriation, and expended under the direction of the Selectmen.

BRIDGES.

A roof has been built over the truss of the Lower Falls Bridge, and the truss and roof painted, the cost of which was $285.22. The total cost of the bridge, including the work done on the roadway approaching it, exceeds the appropriation made July 29, 1873, $192.98. The foot-bridge at Upper Falls (stone bridge) has been rebuilt at a cost of $218.31, which amount was charged to the highway appropriation, to be used under the direction of the Selectmen. A bill has been received from the city of Newton, amounting to $261.36, for half the cost of building a foot-bridge over Charles River at Newton Lower Falls. This foot-bridge is claimed to be of as much benefit to Needham as to Newton. An article will be found in the warrant for the March meeting to see if the town will order it paid.

GUIDE-BOARDS.

There has been a large number of guide-boards and street-signs put up during the past year, and with those now nearly completed it is believed the want will be supplied. A Street Directory is being prepared, and a list of the names of all the streets will be presented to the town at the March meeting for acceptance.

EXTENSION OF HIGHLAND AVENUE.

Pursuant to a vote of the town the Board advertised for proposals for building this street, the work to be completed by September 1st. Fifty-two proposals werereceived, rang-

ing from $4,000 to $16,900. The contract has been awarded to B. Dorety & Son, of Malden, at $5,275.00. At a meeting with the Newton Committee on Roads, it was voted to advertise for proposals for a stone bridge, and it is hoped an estimate may be had by the time of holding the annual meeting.

PETITIONS FOR LAYING OUT STREETS.

Petition to relocate and widen the street from Eaton's Corner to Wellesley. This is a main thoroughfare from Wellesley to Needham and Dedham, and in the opinion of your Board, should be a well-built street, and of a width not less than fifty feet from village to village. At the hearing, some of the abutters expressed a willingness to give their land, while others not only declined to give, but opposed the widening. In view of this state of things, and what seemed to be the more immediate necessity of widening Forest Avenue, it was not deemed advisable to grant the petition.

Street from Hatch's Factory to Webster Street, near house of J. Scotten. This street was petitioned for last year, was acted upon, and referred to the next Board. Another petition for the same street was presented to the present Board. After a survey and a careful consideration of the matter, it has been decided to lay out that part of it which leads from West Street to Webster Street. The following awards have been made for land damage: P. T. Foley, $75.00; Dennis Coleman, $75.00; Elizabeth Freeman, $50.00.

Warren Street, from Great Plain Avenue to Dedham Avenue. This street has been graded and gravelled by Messrs. Dewing Brothers without expense to the town, and the petitioners request it may be laid out as a public way. Petition grated; no land damage.

A petition has been received for a number of streets to be laid out as public ways over land of the Nehoiden Land Co.

These streets are represented as graded and to be gravelled without expense to the town. As it was late when the petition was received, and the streets unfinished, it was not considered necessary to act upon it.

PRIVATE WAY IN GRANTVILLE.

Petition of L. Allen Kingsbury and others for a private way from Laurel Avenue to Florence Street, over land of one Horrigan and of said Kingsbury. Petition granted.

PERAMBULATION OF TOWN LINES.

Your Selectmen, with the Selectmen of Natick and Weston, have perambulated the lines between this town and the towns of Natick and Weston, according to law.

On the Natick line some of the bounds were missing, and it having been considered advisable to survey the line, Mr. F. L. Fuller was employed for that purpose.

A record has been made of the line, for future reference; the missing bounds will be renewed as soon as the frost is out of the ground.

1775 — LEXINGTON — 1875.

An invitation has been received by the town from the authorities of Lexington to unite with them by three representatives, in celebrating the hundredth anniversary of the battle which took place in that town on the 19th of April, 1775. As an early reply is desired on their part, we would suggest the matter be considered at the annual meeting and delegates chosen.

FIRES.

The amount paid out on account of fires during the year has been $626.49, while the appropriation was but $500. Some new hose is needed to replace the old, which is kept at Lower Falls, and an appropriation of $500 for that purpose is recommended. Better protection in case of fire is

needed in some of our villages. Your Selectmen would recommend the adoption of the report of the committee appointed at the last annual meeting, for the purpose of considering the matter of extinguishing fires, which was substantially as follows: That reservoirs be built in Grantville, Wellesley, and Needham: fire-buckets and ladders be furnished for Highlandville, Needham, Grantville, and Wellesley, and a hand-engine at Needham and at Wellesley. The estimate of the committee was that the whole would cost about $2,400, but in addition to this, perhaps $1,000 would be needed for storage and manning the engines.

This plan would seem to meet the requirements for the present at a comparatively small sum, while if a plan with steam fire-engines was adopted, it is believed it would necessitate an outlay of not less than $20,000.

BOARD OF HEALTH.

Numerous complaints were made last summer against the use of city swill. Your Selectmen, acting as a Board of Health, visited the different places where such material was used, and found just cause for complaint. The evil was remedied to a certain extent, but there is need of further improvement. In warm weather the effluvia from the pens (unless they are managed with great care) is almost intolerable to persons of ordinary nerves and sensibilities, unless they have become accustomed to it. The most experienced physicians claim it is a cause of terrible suffering and disease. We would therefore recommend that such stringent measures be adopted for the future that there can be no cause for complaint, and that an expression of the town by vote be taken at the annual meeting on this question.

CEMETERY.

We present this subject once more, as it seems important that every one should give it thought. The question must

be met, let it be decided as it may, for necessity calls upon the people to act. Let the people adopt the plan of one cemetery for the whole town, and in a few years the wisdom of this will be manifest. We earnestly recommend that the town set apart, as a cemetery, that piece of land belonging to them, lying southeast of the town house, containing about twenty-five acres, and take such measures as is necessary for the carrying out of a plan which cannot but be of the utmost importance to the future interests of the town.

ESTIMATES FOR THE CURRENT YEAR.

The following is a list of appropriations recommended for the ensuing year: —

Schools,	$14,000 00
Incidentals, including furniture for Grantville School-house,	2,500 00
Grading lot, Lower Falls School-house,	500 00
Poor,	3,000 00
Repairs of highways,	8,000 00
Collection, discount, and abatement of taxes,	5,000 00
Interest,	5,500 00
Printing,	600 00
Salary,	3,200 00
Extinguishing fires,	750 00
Decoration Day,	200 00
Newton Road, probably,	11,000 00
Hose for Lower Falls,	500 00
Columbia Street,	300 00
Foot-bridge over river at Lower Falls,	261 36
Necessary town charges,	1,200 00
Forest Avenue,	600 00
	$57,111 36

Adding to the above estimate the probable State and County tax, and taking into account the receipts from the bank and corporation tax, it appears that it will require an assessment of about $13.50 per thousandtomeet the expenses of the current year.

All of which is respectfully submitted,

WILLIAM R. MILLS.
EVERETT J. EATON.
JOS. E. FISKE.

REPORT

OF THE

SCHOOL COMMITTEE

OF THE

TOWN OF NEEDHAM,

FOR THE

YEAR 1874–75.

REPORT.

The present year marks an era in the town, as far as regards material accommodations for the schools. The two new buildings at Grantville and the Lower Falls, while differing in style and interior arrangement, are believed to equal any of their class in the State, and are sufficient to meet all requirements for a long time to come. Certainly the thanks of the town are due in full measure to the gentlemen who have given so much of their time and attention to the arduous requirements of supervision in the process of erection; as also to the donor of a fine clock and bell for the school-house in Grantville, which will be highly appreciated by all who dwell within sight or sound of them. Further provision has also been made for the increasing number of scholars at Highlandville, by finishing and fitting up, out of the regular appropriation for schools, the upper story of the building in that district, and arrangements have been made for dividing the school into three parts, of Primary, Intermediate, and Grammar, — a method which may be extended with advantage to other schools as soon as the number of pupils shall warrant it.

It is greatly to be wished that an equal advance could be reported in the arrangements for intellectual progress. The difficulty remains, and is perhaps unavoidable, that, owing to the limited number of scholars, the number of classes and the range of studies in each school interfere greatly with efficient work on the part of the teachers. The number of recitations is so great as to make it almost impossible to

keep the scholars up to their work. The time required for the ordinary studies of Reading, Spelling, Geography, Grammar, and Arithmetic will explain the moderate progress in such other branches as Drawing, Music, Gymnastic Exercises, etc.

The advance in salaries granted last year seems to have been sufficient, and there will probably not be much difficulty in securing and retaining teachers of fully average capacity. The Committee are inclined to believe that our schools are at least equal to those of other towns in similar circumstances; but there is a great want in the absence of efficient means of comparison. It is quite as much as can be expected of members of the Committee that they should visit and look after the wants of their own schools. If facts are correctly reported, the example set by the Boston Committee is not edifying, even in this respect. That they should also seek a standand of comparison by extensive visiting of other schools is out of the question. The teachers are indeed, in accordance with the statute, allowed one half-day in each term for visiting other schools; but though this may furnish them with hints for their own guidance, it does not furnish any criterion for deciding whether they have taken advantage of the opportunity. This difficulty is felt also in the want of any means of knowledge on the part of parents as to the quality of schools. It is well known that families which remove from the city to suburban towns, especially the class whose residence is most desirable, are largely influenced by a desire for the welfare of their children, and a chief element in guiding their decision is unquestionably the character of the schools. Large and handsome buildings are of course a considerable, but by no means the largest, item. These are but a means, and not a guarantee, of the end of education.

Of the really important part parents have but little opportunity, even if they had the capacity, of judging. In England there are inspectors, appointed by the Education Department and paid by the State, who travel through the kingdom examining and certifying as to the quality of the schools, — an arrangement which might be adopted here with the greatest advantage. Supposing a definite standard of attainment for Primary, Grammar, and High Schools were adopted by the State, and a competent body of men appointed to visit and examine in the different towns, their certificates of character upon a graduated scale would be of great value. The stimulus to teachers, through the advertisement of their capacity and the chance of promotion, would be very material.

It might be objected that the poorer towns would at once lose all their good teachers; but on the other hand, they would get early notice of the inferiority of poor ones, — a point upon which the committees of such towns are themselves often incompetent to judge. The general standard could hardly fail to be raised. The inducement to residence furnished by such certificates would turn the rivalry of towns in the direction of teachers, which would be, in many respects, more desirable than the rivalry in expensive buildings, which tend to defeat their object by increase in the rates of taxation, valuation, and debt.

In the absence of such tests, the results of the Primary and Grammar Schools are to be looked for in the High Schools, and the Committee are obliged to confess that they are in many respects unsatisfactory. That a town of the size of our own should support two efficient High Schools is not to be expected. The necessity of an assistant in the West School, and the objection on the score of expense,

were alluded to in the last report. In the spring of this year an opportunity occurred of securing the services of two ladies of undoubted competence; and the experiment, as far as they are concerned, has been an entire success. Not only in discipline and deportment, but in thoroughness of instruction, the school is to-day much in advance of what has been, at least of late years, attained. In the East High School the resignation of Mr. Lawrence made the employment of a new teacher necessary, and the high character of his recommendations seems to have been justified by experience. The requirements of the statute made it necessary to employ some assistance in the teaching of Greek. The maintenance of any high standard of scholarship is, however, made extremely difficult by the small number of scholars. Formerly, the crowded state of the lower rooms made promotion necessary as a relief. At present, however, the requirement of space is amply provided for, and there is now no reason, on that score, why any scholar should be admitted to the High School without the requisite attainments. At the close of the summer term several scholars were turned back, with most manifest advantage both to the upper and lower schools. Anything like adequate pressure in this respect would, however, too greatly diminish the available material.

There is another reason of importance for the union of the two High Schools. At present, the schools on the two sides of the town are as completely separate as if in different towns. The standards of acquirement *may be* entirely different, and even the courses of study may vary with the peculiar tastes and aptitudes of the teachers, while the scholars have no personal acquaintance or connection. Every one knows how close are the ties of friendship created by the association of

school-days. If the town is to remain united, there should be some of the unity of feeling resulting from mutual acquaintance. The Grantville School-House furnishes ample accommodation for any prospective wants, and if, instead of two schools of twenty-five or thirty scholars, there could be one of double the number, there would be at least a basis for a High School worthy of the name. It is believed that a daily conveyance to and from school, sufficient for all the scholars from the east side, could be provided at an expense which would still leave ample means for the employment of instructors, without increasing the total outlay. An important condition would be the residence of at least one of the teachers on that side, who should accompany the scholars in the transit, and by the enforcement of discipline obviate the objections which naturally present themselves to unrestrained intercourse.

GAMALIEL BRADFORD,

for the Committee.

NEEDHAM, Jan. 1, 1875.
